Bible Exegesis, Interpretation and Application

Instructors: Dann Farrelly, M. Div., Bernie Ooley

COURSE OVERVIEW

The truth is that every reader of the Bible interprets it; the only question is whether or not you will be any good at it. This course is both an introduction and an equipping time so that students might accurately handle the Word of Truth. This class is designed to help students examine and, if need be, alter the "lens" through which one interprets & experiences Scripture. The course will help the student to:

- acquire a set of skills and ideas in both the spirit and mind that causes students to develop a coherent interpretive method that is consistent with Scripture's self-understanding.
- appreciate the ongoing revelatory nature of God speaking through His Word and to His people.
- understand the interpretive method of fellow believers.

We will learn and assess the interpretive process of the evangelical church and how it functions within our community; one that deeply values the Bible and is within the evangelical tradition and God's ongoing communication with his church.

COURSE PURPOSE

- To know and love God more because of and through His Word. In a sense, all Bible study ought to be devotional and should move us to worship and devotion.
- To understand, enjoy & "accurately handle" both the simplicity and complexity of the "Word of Truth" as you study. "Do your best to present yourself to God as one approved, a workman who does not need to be ashamed and who correctly handles the word of truth" (2 Tim. 2:15).
- To be able to joyfully "feed" yourself and "feed" others the truth of the Bible.
- To hear and obey God better in the present, as He speaks.

COURSE FORMAT

The course involves large amounts of reading, lectures, Q & A, in class assignments and completion of homework assignments prior to the lectures. There are approximately 50 class hours throughout the year.

COURSE REQUIREMENTS

- 1. Attendance at sufficient number of lectures in keeping with BSSM attendance policies.
- 2. Completion of all required reading which includes the entire Grasping God's Word text and 30 Days to Understanding the Bible.
- 3. Completion of assigned Bible reading (approximately 50% of the Bible) and submission of Bible Survey Questions on assigned reading.
- 4. Completion of ALL weekly Bible assignments in a satisfactory manner.

REQUIRED READING

COURSE PRESUPPOSITIONS:

- 1. The Bible is primarily God's book about Himself, not man's book about God. In other words, the Bible is inspired (God breathed), authoritative and, as originally written, is without error.
- 2. Scripture is both timeless (eternal) and anchored in a particular time in human history. It is God's idea's in human language ancient languages most of us don't speak which has been translated into the languages we do speak.
- 3. The Bible will never become irrelevant nor pass away, and we haven't come close to grasping its total depth. Yet the Bible is NOT an "end" in itself. Its purpose is to lead us to know and worship God in Spirit and in Truth.

COURSE RELEVANCE:

The Bible is the primary, authoritative guide to the faith & practice of Christianity. All supernatural and natural experience must be measured by the Truth as revealed in God's Word. God is still speaking but everything we now hear must be consistent with what He has spoken. We cannot lead properly, or in a healthy, holy manner in the Christian community if we don't know how to understand the Word.

We are neither the only nor the most important part of the church. We are part of a larger body of Christ. Other believers need us to be biblically sound as we express the supernatural, experiential gospel we are called to. It is a false goal to attempt a balance between truth and power as if they were opposite each other. We want to be very truthful with the Bible and very powerful in the things of God. "Long" on study and experience. All motivated by love.

Though not based on reason, our faith is reasonable! We are commanded to give a reason for the hope that is in us. As we send you to influence the Mind Molders, no secular professor, atheist judge or hedonist entertainer ought to be able to shake you because of some "new" idea. As faith filled, supernatural, thinking believers, we want to send you into the world as innocent as doves but as shrewd as serpents (Mt. 10:16).

COURSE GOALS:

- 1. That students acquire the skills mentioned in the Course Overview.
- 2. That students would be informed, thoughtful exegetes and interpreters of the simple truth of the Bible, able to research and find answers for more difficult questions.
- 3. That students would develop the ability to come to accurate, mature conclusions about Biblical theology based on the Holy Spirit empowered skills that bridge historical/cultural/grammatical distance between the "then & there" of Scripture and the "here & now" of interpretation & application.
- 4. That students would become skilled at Inductive Bible Study (in the style presented by the instructor) so that when one finds themselves in the African bush and is asked to preach or even teach about Biblical interpretation and application one is able to do so with just the Bible and the Holy Spirit.
- 5. That students will memorize enough relevant material about geography, timelines, and OT/NT characters to have a basic working knowledge of the Bible on which to build.

The Supernatural Nature of the Gospel

Instructors: Pastor Bill Johnson and guest lecturers

COURSE OVERVIEW

This course is designed as a "do and teach and do" course. There will be demonstrations of God's ability and willingness to move in power with and for his people. It will highlight the Biblical basis, emphasis and necessity of the supernatural in the furtherance of the Gospel. There is extensive examination of the life and teachings of Jesus as the prototype for the ministry of the believer. His intimacy, dependence and expectation are the blueprint for the Christian life. Keeping in step with the Holy Spirit as the apostle Paul commands will result in a naturally supernatural lifestyle. The instructor and guest speakers will provide testimony of the national and international implications and success concerning the supernatural nature of the Gospel and its power for explosive church growth and cultural transformation, as well as demonstrate its availability & rationale.

As well, there will be discussion and emphasis on the leaders who moved in signs and wonders in the 19th and 20th century who rekindled and helped revive the power of the church. These men and women are especially highlighted in the required reading as students are taught to learn from their strengths and weaknesses.
